

Project Masterpiece 26

Seize This Once-in-a-Lifetime Opportunity Extended Call for Designers!

Attention, designers in the Kansas City region!

We have extended the "Project Masterpiece '26" submission deadline, giving you a unique chance to be part of an incredible artistic opportunity to bring a ***new form design*** for the Parade of Hearts in 2026.

This is more than just a design — this new form will act as a dynamic canvas to the artists selected for the 2026 Parade of Hearts — representing the KC Region on the global stage when KC hosts the FIFA World Cup!

We challenge you to break free from conventional designs and create innovative, visually captivating and interactive concepts. Designs can consider symbols such as: KC Heart, Soccer, Internationality and Unity.

Please note that these symbols are recommendations, not requirements, and full renderings are not necessary. ***Submissions can range from simple hand sketches with descriptions to detailed 3D renderings — whatever best conveys your concept!***

The winning design will be paired with a Design Engineer at Dimensional Innovations and a selected fabricator to collaboratively navigate the manufacturing process.

We look forward to your creative design submissions!

Submission Form: [PM 26 Design Submission](#)

Extended Submission Deadline:

December 19, 2024 – 5 pm.

Thank You!
