Junior Software Developer seeking employment in a dynamic fast paced environment that will best utilize my previous and newfound skills. Worked in multiple industries such as Aerospace, Pharmaceutical, and Automotive in various job roles. Looking to grow my proficiency in Java and new programming languages as well as bring these skills and knowledge to future team members.

Technical Skills

- **Object-Oriented Programming:** Java,
 - **Web Application Development:** HTML, CSS, JavaScript, Vue.js, Servlets, JSP, Spring Web MVC, Tomcat
 - **Database Programming:** JDBC, Table Design, SQL, PostgreSQL, E/R diagrams
 - **Development tools and techniques:** Agile, Unit Testing (JUnit), Integration Testing, TDD, Git, Eclipse
 - **Certified in Microsoft** Access, Excel, and Word through Pearson MyITLab
-

Education

Tech Elevator – Columbus, OH

January 2020 – April 2020

14-week coding bootcamp learning how to develop dynamic web applications using the Java programming language and platform.

Associate of Applied Science – Columbus State Community College

Major: Computer Science Software Development – completed 48 credit hours

Technical Experience

Capstone Catering System – Developed in Java using OOP and file I/O.

Capstone Venue Ordering System – Developed a venue system for looking up and reserving available spaces based on customer needs. Built with Java through the use of databases and DAO interfaces.

Capstone National Park Website – Developed a website using the Spring Web MVC Framework giving the user the ability view data on National Parks and submit survey responses.

Final Capstone Harvest Assist Application - In a agile scrum team created an application for farmers to log data on crops and harvest times. Users have the ability to receive daily notifications regarding planting information, expiration times, and sales data. Developed back-end using technologies such as Java, Rest Api, PostgreSQL for database and front-end using Vue.js for client-side interface.

Experience

AUGUST 2019 – JANUARY 2020

SALES SUPPORT ASSOCIATE / UNIVAR SOLUTIONS

- Guided assigned sellers in the sale of industrial grade chemicals for pharmaceutical customers.
- Utilized tools such as Salesforce, SAP, and UVX to ensure sellers are supported in Pricing, Documentation, Questionnaires, and Metrics.
- Collaborated with colleagues to ensure requests are handled in a timely and efficient manner.
- Worked with management on establishing processes for request's sent by sellers.
- Adapted to new processes in the acquisition of multiple companies.

MAY 2018 – AUGUST 2019

Lab Technician / Syscom Advanced Materials

- Analyzed lab results of chemical baths in the making of EMI Fibers during production runs.
- Performed lab tests to determine the concentration of Metals, Specific Gravity, pH, Acid levels, and Catalysts Densities adjusting as needed to ensure quality of product.
- Followed State and Federal laws on handling and disposing of hazardous chemicals.
- Trained in the use of PPE around caustic chemicals.
- Communicated lab results to line technicians to support and maintain quality of product.

SEPTEMBER 2017 – MAY 2018

Warehouse Associate / Cardinal Health

- Processed inbound pharmaceuticals for warehouse inventory under FDA, DEA, and Cardinal Health regulations.
- Maintained standard operating procedures.
- Certified on a Dock Stocker, Reach Truck, and Order Picker.
- Loaded and unloaded trailers of incoming vendors for processing to include ambient and controlled products.

COMMUNITY SERVICE/ VOLUNTEER WORK

- **Friends of the Lower Olentangy Watershed: Volunteer (2018)**
